

# AMBAZONIA COALITION TEAM (ACT)

## 'Our People, Our Homeland'

Washington DC

March 09, 2020

The Ambazonia Coalition Team (ACT, also known as Team Ambazonia) draws the attention of fellow Ambazonians to the fact that La Republique du Cameroun is pursuing desperate efforts to delay, derail, cancel, sabotage and/or undermine “negotiations without preconditions” as supported by the international community under the auspices of the Swiss Government.

Current efforts include the planned holding in Nairobi, Kenya, and Washington, DC, USA, of conferences under the auspices of former African Heads of State (for the Kenya conference) and a so-called Coalition for Dialogue and Negotiations. These conferences replicate the failed Grand National Dialogue held by the colonialists in 2019. Their lone goal is to suggest that Ambazonians are not yet organized for negotiations and to buy the time the colonialists need to further the genocidal violence they are perpetrating across Ambazonia in a vain attempt to break the resilience and resolve of Ambazonians to settle for nothing less than outright independence.

Team Ambazonia will not attend any of these “talk shops” and we call on all Ambazonians, genuinely committed to the restoration of independence, to stay away from them as well. The international community is reminded that those sponsoring, organizing and/or attending these conferences are enablers of the annexation of Ambazonia and the ongoing genocidal violence. Its promoters are well-known federalists and supporters of the so-called “one and indivisible Kamerun” who should join “Team Cameroun”; and not try to pass for Ambazonians who are represented by the 13 liberation movements and their self-defense units who signed up to the Swiss-led Process.

Supporters of a prolongation of the ongoing genocidal violence in Ambazonia who keep sending the false message that Ambazonia is somehow not ready for negotiations without preconditions on the terms of our separation from La Republique will not be allowed to prosper. They will also not be allowed to serve as the Trojan Horse the colonizers have been seeking in order to infiltrate Team Ambazonia.

Further, ACT informs fellow Ambazonians, that unless prevented by fear of or the actual spread of the Corona Virus, Team Ambazonia will reconvene in Switzerland before the end of March 2020 to pursue our preparations ahead of the first face-to-face talks-on-talks with La Republique du Cameroun. ACT remains focused on the prize (independence) and urges Ambazonians to keep their eye on that same ball. It is either independence or resistance forever.
